

AN OPEN LETTER TO CUBA

Author: "*The Man Who Poked the IRS in the Eye and Won*"

Congratulations y Salud Presidente Raul, y Fidel, et al;

You have finally been invited to join one of the world's most exclusive clubs! As you will soon find out, you will profit greatly from this club if you quickly adhere to the US's foreign policy. Vladimir Putin knows it well, and had this to say about it in a speech he made in Munich on February 10, 2007...

"US foreign policy doesn't change. It is immutable, relentless and vicious. America owns the world and demands that foreign leaders obey Washington's directives. "Follow orders, or else"; that's all one needs to know about US foreign policy."

As I write, Mr. Putin's country's financial system is being looted and pilfered for deviating from the "policy". Although you've been there too, and have had that done to you for over 50 years, you will have a very *Prospero Año Nuevo* if you comply.

Again, you will find that part of "following orders" means allowing our banker's/Wall Street profiteer's (hereinafter referred to as 'Los Bankeros') to run your economy. They will show you how to regularly bankrupt your country, and your people, every 13 to 15 years like clockwork, and then reap the spoils of their "austerity programs".

Los Bankeros and their armies of enforcement agents will make your country safe for "democracy". See how one of our Generalissimo's did this many years ago...

"I helped make Mexico, especially Tampico, safe for American oil interests in 1914. I helped make Haiti and Cuba a decent place for the National City Bank boys to collect revenues in. I helped in the raping of half a dozen Central American republics for the benefits of Wall Street. The record of racketeering is long. I helped purify Nicaragua for the international banking house of Brown Brothers in 1909-1912. I brought light to the Dominican Republic for American sugar interests in 1916. In China I helped to see to it that Standard Oil went its way unmolested." --**Marine General Smedley Butler (1881-1940)** (In [War is a Racket](#), 1935)

Los Bankeros control everything. See the following June 25, 1863 confidential communiqué sent from the Rothschild's investment house to a banking firm in NYC, which succinctly summarizes our banking system...

"The few who understand the system will either be so interested in its profits or so dependent upon its favors that there will be no opposition from that class while, on the other hand, the great body of people, mentally incapable of comprehending... will bear its burdens [austerity programs] without complaint..." (--Quoted by **Robert L. Owen** in "National Economy and the Banking System, Washington DC U.S. Govt. Printing Office, 1939, pgs. 99-100. See also pg. 389 in **G. Edward Griffin's** "The Creature From Jekyll Island".)

(This sheds light on how our Congress-Critters who enter Congress as folks of modest means, emerge from Congress and retire as multi-millionaires!)

You see, Sr.'s Castro, about a hundred years ago, our elected Congress-Critters gave away their Constitutionally mandated duty to control our currency to Los Bankeros. As a result, our current dollar is now worth about one-cent in 1913 dollars.

Los Bankeros can create, out of nothing, a billion dollars simply by pressing a key on a computer!! Make no mistake, neither you nor I are allowed do this, but they are allowed to do this all day long, and your bankers will be able to do this too if you "follow orders". Here's how it works...

"The modern banking system manufactures money out of nothing. The process is perhaps the most astounding piece of sleight of hand that was ever invented. Banks can in fact inflate, mint and unmint the modern ledger-entry currency".-- Sir Josiah Stamp, President of the Bank of England in the 1920's.

And, a most amazing truth...

"Give me control over a nation's currency and I care not who makes its laws." **Baron M.A. Rothschild.**

You might be pleasantly surprised to learn how much our governments now have in common, and how far we have come in implementing the "Ten Planks" of the Communist Manifesto. As Mr. T. Coleman Andrews (Commissioner of the IRS for 33 months Under the Eisenhower Administration before he resigned) remarked on May 25, 1956 in a U.S. News and World Report article...

..."We're confiscating property now....That's socialism. It's written into the Communist Manifesto. Maybe we ought to see that every person who gets a tax return receives a copy of the Communist Manifesto with it so he can see what's happening to him."

President James A. Garfield (1831-1881) had this to say on the topic...

"While boasting of our noble deeds, we are careful to control the ugly fact that by an iniquitous money system, we have nationalized a system of oppression which, though more refined, is not less cruel than the old system of chattel slavery."

We have come a long way since 1956. Marx, Stalin, and Lenin would be most proud of the new "economic slavery" that the United (Socialist) States of America has perfected.

For example, your police will be shown how to rob your people of every thing they have at a simple traffic stop. That's courtesy of our new "asset forfeiture" laws. Yes, if folks have some cash, or they are driving a nice car, your police will "legally" be able take it from them right there on the street, and then sell it, and/or spend the money on more guns and hollow-point bullets to shoot the people with if they don't "follow orders".

Our "code" enforcers now have the people running scared... of everything. And we keep them scared by fabricating new hob-goblins/crisis every 2 weeks or so on our national-social-programming networks (which are all owned by Los Bankeros in conformity with The Manifesto).

You will also learn how to totally confuse your people with rooms and rooms full of "uniform commercial" codes and "tax" codes, and "judicial" codes etc., etc., that nobody can decipher, much less understand.

In an April 14, 1993 speech at Southern Methodist University, former IRS Commissioner Shirley Peterson commented that...

"Eight decades of amendments... to the [Internal Revenue] code have produced a virtually impenetrable maze... The rules are unintelligible to most citizens... The rules are equally mysterious to many government employees who are charged with administering and enforcing the law."

In these "codes", "state" doesn't mean "state" and "income" doesn't mean "income". For example, when the Alaskan "territory" became a "state", the word "Alaska" had to be removed from all our country's "codes" that defined the word "state".

You will have your people in a "state" of total confusion when you do away with the common (sense) law and "codify" everything. And then you mandate that "... the citizen is presumed to know the law".

These "code-writers" are Los Bankero's "language" experts... and they can show you how legalize anything!

For example, over the last 50 years or so, the war profiteers and Los Bankeros have combined together with our government (Mussolini defined this as fascism) to set back the basic rights of human beings to about the 9th century!

I'm sure you both are aware of our country's new and improved torture programs. Of course, we don't call it torture... we sanitize it by calling it "extraordinary rendition" or "indefinite detention" or "enhanced interrogation" or, get this, the more innocuous, "EIT." Who can remember what that means???

George Orwell once said that... "Political language. . . is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind."

These "legalized" torture techniques can be used to show your people/enemies what happens when they don't "follow orders." Need a little genocide? No problem, check out the "legal" methods we used on our Native Americans and our Slaves. A Native American friend of mine, who happens to be well trained in the law, recently told me that "... you're all Indians now."

International Law? Pay it no attention. We are accountable to no one.

Now that we have successfully done away with "peace" officers, Los Bankeros' "law/code enforcement" juntas, the FBI, CIA, DEA, DHS, IRS, DOJ, NSA, DOT, TSA, BATF, etc., etc., ad nauseam... have our people by the cajones!

Our population trembles in fear, and studies have shown that their blood pressure will rise, at the mere mention of the name of one of our most notorious "homegrown" terrorist organizations, whom I refer to as "IRIS". Why, our people are more terrified of IRIS than of any foreign ISIS or ISIL etc., etc.

For example, even though our Supreme Court held in Southern Pacific Co. v. John Z. Lowe (247 U.S. 330) that ...

"We must reject ... the broad contention submitted in behalf of the Government that all receipts -- everything that comes in -- are income...."

...IRIS will use "legal" threats, duress, coercion, theft, extortion, perjury and subornation, mail fraud, judicial fraud, etc., etc., ad nauseam, to get our people, each and every year, to declare as "income" that which is not. UNDER PENALTY OF PERJURY no less!!

Thus, every April 15th, Los Bankeros are able to "legally" confiscate half the people's yearly compensation for their labor!

If however, the people don't follow orders and "pay their fair share", they go to jail in one of our many for-profit-corporate-incarceration facilities where slavery is legal. Although we only have 5% of the world's population, we have over 25% of the world's prison population!

According to ACLU statistics gathered from 1970 to 2005, the US has increased its prison population by about 700 percent. There's HUGE money in prisons, and the prisoners work for next to nothing!

In a December 28, 2014 article entitled "**The Prison State of America**", Chris Hedges has stated that...

"Slavery is legal in prisons under the 13th Amendment of the U.S. Constitution. It reads: *“Neither slavery nor involuntary servitude, except as punishment for crime whereof the party shall have been duly convicted, shall exist within the United States. ...”* And the massive U.S. prison industry functions like the forced labor camps that have existed in all totalitarian states."

And all the folks, not yet imprisoned, that are the object of IRIS's cruel April fool's joke have been successfully programmed into thinking that their money is spent on roads, schools, hospitals, etc.! The reality is...

“One-hundred percent of what is collected is absorbed solely by **interest** on the federal debt... all income tax revenues are gone before one nickel is spent on the services which taxpayers expect from their government.” (January 15, 1984 report by the **Grace Commission** of President Reagan’s Administration.)

Yes, Los Bankeros get it all... as interest... on money they created out of thin air, and then loaned to our government!! As William Casey, former CIA Director, said at his first staff meeting in 1981...

"We'll know our disinformation program is complete when everything the American public believes is false."

There's so much more, "no-knock-searches", "kill-lists", CAFR's, drones, all of our judicial "districts" listed in Dunn and Bradstreet as for-profit corporations, NSA wiretapping, black-site prisons... but I digress.

Congratulations again on your invitation to join the club, and, if you "comply" you will have more money and guns and bombs and prisons than you can imagine. Why, we now spend over 50% of our country's people's labor and hard earned money (i.e., our "budget") on war, and it produces many great jobs.

Let's put people to work! That way the commoners can have a comfortable and "secure" life while the fruits of their labor are "legally" confiscated by Los Bankeros' code enforcers.

Our governments can then collaborate in finding more efficient ways of incinerating men, women, and children. Don't worry, you won't see the blood, or smell the burnt flesh, or hear the children's screams because we delete all that nasty stuff by remote control.

All you MUST do is "follow orders". **Or else.**

Comprenden Amigos?

PS; While my country waves the flag and pounds the drums for civil liberties such as "freedom of speech" etc., etc., ad nauseam, do not be surprised if my next letter to you is from a prison cell, or from my grave. And, thanks for the great music!
