

# *A Mandate*

*From*

## *We The People*

### **To The American Government**

*Local, State and Federal*

**PREFACE:** For far too long government, at all levels, has turned what was supposed to be a Constitutional Republic and Federalism into the land of oppression, restrictions, regulations, laws, legislation and bureaucratic rules. There is a rule for everything and for everything there is a rule. The Covid-19 pandemic gave rise to even more laws, rules and restrictions, many of which were more about control of the masses than about security, safety, or public health, much less freedom. Those laws, rules, restrictions and regulations created to fight the pandemic needlessly threw millions of American out of work and closed tens of thousands of businesses, never to open again. During and after the epidemic, government became even more oppressive. In the interest of instituting absolute power and one-party rule socialist Democrats have turned on the people with a vengeance and have become the enemy of the people with their unconstitutional efforts to dismantle our Republican form of government and turn it into an alleged socialist utopia. It is way past time for the people to turn on their government and issue demands upon them in the interest of preserving liberty and the Republic for which we stand. **To that end, “We The People” make the following demands upon government, at every level, as well as a warning of the outcome if these demands are ignored or not met.**

*Check the boxes you want to include in your demand to government*

- 1. Rescind every one of President Biden's Executive Orders and Directives since January 20<sup>th</sup>, 2021 and cease and desist any further Executive Orders or Directives that are in violation of the President's Oath of Office, or violation of the Constitution.
- 2. Re-instate all of President Trump's initiatives that secured America's borders from illegal entry.
- 3. Stop the attack on fossil fuels, re-instate the keystone XL pipeline and open up federal lands for minerals, rare earth elements, crude oil and natural gas?
- 4. Cease and desist the government's climate change and Green New Deal initiatives and withdraw from the Paris Climate Accord.
- 5. Prohibit Critical Race Theory from being taught to local, state and federal government employees, public school children and college attendees. Get government out of the business of gender equality and gender dysphoria. When government legislates morality, they screw it up every time. Do not pass the Gender Equality Act, HR 5.
- 6. Cease attempts to repeal the Electoral College and the U. S. Senate's filibuster rule.
- 7. Cease attempts to make Washington DC and Puerto Rico the 51<sup>st</sup> and 52<sup>nd</sup> states.
- 8. Cease attempts to institute socialized medicine under the scheme called Medicare-For-All. Repeal Obama Care and replace it with a private insurance industry solution and establish a federal government pool for the less fortunate and those with pre-existing conditions.
- 9. Significantly reduce the recently passed \$1.9 Trillion stimulus bill by removing the billions of dollars of Democrat- sponsored "pork" and target the funds to strictly those individuals and businesses that have been harmed by the Coronavirus government-mandated shut down.
- 10. Return the military to a true fighting force, raise the standards to fighting-strength levels and stop the social justice, equity, ethnic and critical race theory nonsense. Quit paying for gender re-assignment surgery. The U. S. Military must be funded, strong enough and adequately staffed and equipped to defeat any other power on earth.
- 11. Do not pass HR 1 in the U. S. Senate that takes voting law and voting rights away from the states and gives it to the corrupt Democrat-run federal government. HR 1 is a blatant power play by the socialist Democrats to institute one-party rule.
- 12. Sanctuary cities, counties and states to "shield" illegal aliens from deportation, borders on harboring a fugitive and is a direct violation of 18 USC Section 1071. All sanctuary jurisdictions must be abolished.
- 13. The Second Amendment to the U. S. Constitution is an inviolate right of the people to keep and bear arms. Cease all attempts to limit or repeal that right by legislation, rule, regulation, or taxation.
- 14. Do not provide free college tuition nor pay all or any portion of the existing or future student loans.
- 15. Cease any federal funding to Planned Parenthood and make no attempts to violate, limit or repeal the Hyde Amendment.
- 16. Start the process of rooting out corruption, collusion, influence peddling, graft and racketeering within local, state and the federal government by specific legislation, or bureaucratic rule, or administrative process.
- 17. Significantly reduce the money and influence of lobbyists, special interest groups, corporations, or unions. America is for the "Consent of the Governed", not rich oligarchs or powerful corporations. Break up Google, Facebook and Twitter under anti-trust laws.

*Check the boxes you want to include in your demand to government*

- 18. Start the process of slowly weaning Americans off of welfare and other government benefits and only support those who are truly disabled, or not able to take care of themselves.
- 19. Property rights are an inviolate right of the people and protected by the 5<sup>th</sup> and 14<sup>th</sup> Amendments. Remove all references to Agenda 21 or Agenda 30 from comprehensive planning manuals or base any policies, rules, regulations, or restrictions, on all or any elements of Agenda 21 or Agenda 30. Withdraw all cities, counties, or states from the International Council for Local Environmental Initiatives (ICLEI) that promotes sustainable development and global environmental rules and regulations.
- 20. If government, at any level, passes legislation, restrictions, regulations, or bureaucratic rules that reduce a property owner's right of use, government is to pay for the percentage loss of use at fair market value.
- 21. Pass federal balanced budget legislation, forcing the federal government to live within its means? The only exception would be in time of war or major national emergency.
- 22. Start the process of paying down the national debt by reducing government spending and apply the savings to the debt.
- 23. Public education should be designed to teach the basics of knowledge in an objective manner. It was never designed to be education for social or environmental indoctrination. Return public education to local control. Abolish the Department of Education. Withdraw Common Core State Standards from public school curriculums, or any other federal program. Cease teaching Critical Race Theory or any other social or environmental justice, equity, ethnicity, or social dogma.
- 24. Pass every piece of legislation or bureaucratic rule, local, state, or federal, with a built-in five-year sunset clause. Establish a commission to review all sunset laws and bureaucratic rules for applicability and constitutionality prior to re-instating the law or rule, or repealing the law or rule.
- 25. Fully fund the Veteran's Administration. Raise physician salaries to attract better doctors. Increase medical facilities to give more choices and access to VA health care.
- 26. Pass term limits legislation limiting 3, 2-year terms for representatives and 2, 6-year terms for senators.
- 27. Continue the policy of energy independence by exploring for and extracting fossil fuels.
- 28. All taxation shall meet the requirements of the 14<sup>th</sup> Amendment of equal treatment under the law. Progressive taxation is a violation of the 14<sup>th</sup> Amendment. Every person should be required to pay their fair share of taxes, even if it is a small amount. It is patently unfair, nor is it equal treatment under the law, that 50% of taxpayers to pay 97% of all personal income taxes.
- 29. No Treaty shall be ratified by the Congress or signed by the President that is in conflict with the U. S. Constitution. The policies of UN's Agenda 21 illegally became law in the U.S. by fiat and was never debated or ratified by Congress. The U. S. recognizes the Law of the Sea Treaty but has not ratified it.

## DECLARATION:

Although governing a nation of 330,000,000 people is a significant challenge, if liberty is to be preserved under a Constitutional Republic, government must take extra care that it does not infringe upon those liberties with too many laws, regulations, restrictions, rules, or ordinances. Slavery does not always have to be a product of a dictatorship. It can also erupt under the strangling restrictions of too many laws, regulations and rules.

The socialist Democratic Party is leading America and the American people in that direction at a break neck pace. Their speed of oppression, subjugation and dictatorial control over the American people through a blizzard of laws, bureaucratic rules, gun regulations, health care nationalization and the repeal of the Electoral College and the filibuster rule, **can and will lead to full-scale revolution or civil war**. Their attempts to establish one-party rule by federalizing the voting process, conservative speech oppression, implementing the fraud of climate change or the Green New Deal, division of constituency groups on the basis of race, gender, class and income and adding two additional states to the existing 50 states, is a blatant attempt at literally seizing control of the American government by force of law and law manipulation. They intend to rule with an iron fist based on socialist-Marxist doctrine, not constitutional principles. President Biden should be impeached for what he has done. Their actions are unconstitutional at best and treasonous at worst.

The socialist Democrats are playing with fire but they seem oblivious to the consequences of their actions. It is estimated that Americans own 393 million guns. About 40% of Americans own guns or live with someone that owns guns, or approximately 84,000,000 people. The firepower represented by gun owners is intimidating, if not formidable. If even a small percentage of American gun owners were to organize into a trained fighting force, there is no nation on earth that could contain them.

Although we do not condone nor advocate for violence in any manner, we provide fair warning to those who would try to take over the government for evil purposes, or change the government into a socialist, communist, or fascist nation ..... *“That whenever any Form of Government becomes destructive of the [foundation of freedom], it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness.”*

In such event, we the undersigned, take no responsibility for the outcome, or final result, of socialist Democrats or other government entities taking action against the freedom, liberty and property rights of the American people.
